2012 Silver Spade Award

Article XI - Silver Spade Award

- *Section 1.0* -- The award is presented every 2 years at the conference meeting. It is presented to a member of the conference who has contributed outstanding regional and/or national service to soil survey. One or two individuals can be selected for the award every 2 years. The selection committee is made up of past award winners, and the last award recipient acts as chair of the selection committee. If multiple awards were given at the previous meeting, the chair of the selected committee is elected by the committee. The recipients of the award become members of the (exclusive) Silver Spade Club.
